

WELDFIT™

WE MAKE PIPELINES

MORE PRODUCTIVE

When there's work to be done and productivity is on the line, put WeldFit to work. For more than 50 years, we've strived to deliver consistent and reliable pipeline services, top-quality products and ground-breaking technologies to pipeline and processing plant operators industry-wide.

TOTAL COMMITMENT TO YOUR
PIPELINE OR PLANT PROJECT.

THAT'S HOW WELDFIT WORKS.

/ HOT TAPS DONE SAFELY
AND EFFICIENTLY

/ LINE STOPS THAT KEEP
YOU ONLINE

/ PIGGING INNOVATIONS
THAT STREAMLINE
OPERATIONS

/ QUALITY FABRICATION
ON DEMAND

/ HIGH-PERFORMANCE,
FAST TURN-AROUND
FITTINGS

HOT TAPPING & PLUGGING THAT **KEEPS YOU ONLINE**

There's no room for compromise when it comes to safe, effective and compliant hot tap and line stop services—and quality fittings. Our experienced and highly-trained technicians bring confidence to our customers' mission-critical projects. Put WeldFit to work for your operation with solid hot tap and line stop support for projects such as maintenance, tie-ins, repairs and more.

TECHNICAL EXPERTISE YOU CAN TRUST

Whether you need a single fitting or support from a service crew, WeldFit's responsive expertise and smooth execution extends from quote to fieldwork. We've built our teams around a mastery in providing

customers with solutions that maximize productivity and keep projects online. That's how we achieve safety, efficiency and total compliance on every job.

AUTOMATED PIGGING SYSTEMS THAT

OPTIMIZE OPERATIONS

We work harder so you can work smarter. Our automated pigging systems not only make pipelines more productive, but they also have the potential to lower pipeline operating costs and streamline field installation. Right now, there are more SureLaunch® units in the field than any other automated pigging system on the market. Why? It's because WeldFit works.

LET OUR FOCUSED
INNOVATION DO THE
HEAVY LIFTING

An industry-wide push for streamlined pigging has brought automation to the forefront of pipeline optimization. Our products offer intelligent control through remote access and a robust data package, delivering smart performance and increased flexibility while maximizing team efficiency.

OUR PERFORMANCE
PRODUCTS GIVE YOU THE

ADVANTAGE

We've built our reputation on decades of quality and commitment to our customers, delivering advanced engineering and custom manufacturing for any application. We can make what you need to ensure productive pipelines, and we proudly serve as your go-to source for pipeline and processing-related fabrication needs.

/ EXTRUDED MANIFOLDS & HEADERS

- GET ROBUST QUALITY THROUGH PROPRIETARY PROCESSES
- ELIMINATE WELDED SEAMS, STREAMLINING INSPECTION AND DELIVERY
- CHOOSE FROM EFFICIENT, EFFECTIVE COMPONENT CONFIGURATIONS

/ SLUG CATCHERS

- IN-FACTORY MODULAR DESIGNS WITH FAST DELIVERY AND EASY INSTALLS
- SMART SCHEDULING FOR PROJECTS AT ANY SCALE
- CUSTOM-ENGINEERED DESIGNS AVAILABLE

UNMATCHED QUALITY, UNWAVERING CONFIDENCE

Our commitment to excellence means that the fabrication experts at WeldFit can make light work out of any challenge you throw at us. Whether it's a simple pipeline component or a large project in need of advanced engineering and custom manufacturing, we deliver top quality on schedule at any scale.

HIGH-PERFORMANCE

FITTINGS

Whether custom-fabricated or ready-to-ship in common specifications, WeldFit offers some of the industry's highest-quality fittings. Made to ASME standards, our components are fabricated from a variety of materials and manufactured to ISO 9001:2015 specifications. And when it comes to QA/QC, we work hard to uphold our reputation for consistent quality every time.

- / SURELOC® FITTINGS FEATURING INNOVATIVE DESIGNS AND QUALITY CONSTRUCTION FOR TAPPING AND PLUGGING OPERATIONS
- / FULL-ENCIRCLEMENT AND PARTIAL REINFORCING SADDLES
- / HOT TAP AND LINE STOP FITTINGS IN MANY SIZES AND SPECIFICATIONS
- / FLOW TEES THAT MAXIMIZE FLOW WHILE ENSURING PIG PASSAGE
- / DOUBLE-HUB FITTINGS
- / SPHERICAL AND THREE-WAY TEES
- / PURGE AND EQUALIZATION FITTINGS

ACCESS A COMPREHENSIVE SELECTION

Our large inventory of fittings and flanges means your search for the right product won't hold you up. We have standard fitting designs to meet most pipeline configurations—and if we don't, we'll make them. We also work hard to help keep your lead times short.

THERE IS NO
PRODUCTIVITY WITHOUT

SAFETY

At WeldFit, our most important work is keeping everyone safe. By integrating best practices and protocols developed over decades in the industry, WeldFit's Target Zero program helps keep people safe and metrics strong no matter the job.

That's why we established our Target Zero program—bringing a systematic, comprehensive approach to HSE performance. The program brings together best practices and protocols that include Job Safety Analyses, state-of-the-art PPE, near-miss reporting, in-house training, third-party certifications, auditing, mentorship and more.

ASK YOUR WELDFIT REPRESENTATIVE ABOUT OUR SAFETY PROGRAM,
AS WELL AS WELDFIT'S EXEMPLARY SAFETY KPIS.

PROTECTING PEOPLE, PROJECTS AND COMMUNITIES

Whether you machine pipe or market products, every single person in this industry must understand and respect the importance of working safely in the field of hydrocarbon

processing and transportation. Attention to detail before, during and after the job goes a long way toward ensuring safe, responsible operations for everyone.

KEEPING PIPELINES PRODUCTIVE

WHEN AND WHERE YOU NEED US

Wherever you find WeldFit, you'll find work getting done. From the largest pipeline networks in the United States and beyond, to processing facilities for independent producers across the globe, WeldFit is dedicated to supporting pipeline productivity anywhere duty calls.
